ABOUT BLUE DIAMOND® ATTACHMENTS

Blue Diamond® Attachments is a trusted and reliable company. Established in 1995, Blue Diamond® is a widely recognized name in the global attachments industry. We are committed to unparalleled customer service from the very first call to the after-sale follow-up and service.

In today's fast-paced environment, delivering quickly and on time are key to success. Blue Diamond® Attachments is very different in the fact that we stock thousands of finished products in our warehouses every day ready to ship. This results in a big advantage for our customers with many shipments leaving in 2-3 days. Our Tennessee facilities alone are now over 300,000-square-feet situated on 43 acres. These facilities, along with streamlined processes, allow most of our orders to leave our facility within 10 days.

YOUR AUTHORIZED BLUE DIAMOND DEALER IS:

Our parts department keeps thousands of replacement parts at the ready and strives to ship all parts orders received before noon the same day the order is placed! Tracking numbers are sent to our customer the day after the shipment leaves our dock.

We are located in Knoxville, Tennessee. This central location allows our products to reach more than half of the United States population within 2-3 days' shipping time. We have many loading docks, which allow us to keep trailers from several freight companies, making use of the best freight lines available. In addition, we are the only 1-day point of export to multiple foreign ports.

- Can cut below ground surface

DRUM MULCHER

The Blue Diamond® Drum Mulcher is designed for clearing brush and heavy mulching. With a 60" cutting width and 34-tooth cutting drum, our mulcher knows no equal. From clearing acres of dense trees to site preparation, no job is too big or too small for your skid steer and the Blue Diamond® Drum Mulcher. Our mulcher uses cutting drum bearings and an overhung load adapter. The head can be configured to be installed on either a closed-loop or open-loop hydraulic system, providing versatility based on the machine you operate and the unique mulcher body design. This also allows for debris to be shed in minimal accumulations.
