

SOD ROLLER, TRAILER SPOTTER, TREE BOOM & TRENCHER

MINI SOD ROLLER

The Blue Diamond® Sod Roller makes laying large sod rolls simple. Slide the roller shaft through the center of the roll and then pick it up with the attachment and then roll sod out. The sod roll can be mounted to the roll out driving either forward or in reverse. The short arm models fit smaller diameter rolls for machines with less capacity.

FEATURES INCLUDE

- Fits 36", 42" and 50" rolls
- Works in forward or reverse

MINI TRAILER SPOTTER

The Mini Trailer Spotter is a great tool for moving trailers in tight areas with your mini skid steer. Accepts a 2" trailer hitch.

MINI TREE BOOM

The Blue Diamond® Tree Boom is designed for setting new trees or moving cut trees. The 1,500 lb. capacity makes this attachment useful in many applications.

MINI STUMP GRINDER

PART NUMBER	MODEL	REQUIRED FLOW	WEIGHT
104110-25	24" Cutting Wheel	12 GPM Minimum	795 lbs

This extremely high torque stump grinder takes the mini capability to an entirely new level. The incredibly efficient radial piston motor, dual direction grinding and the tooth setup make stump grinding a breeze. Available to fit mini universal mounts.

MINI TRENCHER

The challenge with a trencher on a mini is that the limited flow range affects the performance. By using the planetary drive offered by Blue Diamond®, torque and durability are both improved substantially.

ABOUT BLUE DIAMOND® ATTACHMENTS

Blue Diamond® Attachments is a trusted and reliable company. Established in 1995, Blue Diamond® is a widely recognized name in the global attachments industry. We are committed to unparalleled customer service from the very first call to the after-sale follow-up and service.

In today's fast-paced environment, delivering quickly and on time are key to success. Blue Diamond® Attachments is very different in the fact that we stock thousands of finished products in our warehouses every day ready to ship. This results in a big advantage for our customers with many shipments leaving in 2-3 days. Our Tennessee facilities alone are now over 300,000-square-feet situated on 43 acres. These facilities, along with streamlined processes, allow most of our orders to leave our facility within 10 days.

Our parts department keeps thousands of replacement parts at the ready and strives to ship all parts orders received before noon the same day the order is placed! Tracking numbers are sent to our customer the day after the shipment leaves our dock.

We are located in Knoxville, Tennessee. This central location allows our products to reach more than half of the United States population within 2-3 days' shipping time. We have many loading docks, which allow us to keep trailers from several freight companies, making use of the best freight lines available. In addition, we are the only 1-day point of export to multiple foreign ports.
