## SNOW & MULCH - HIGH BACK

The high back snow and mulch bucket features a higher back than our standard snow and mulch bucket with mesh for visibility. The reinforced floor and back give this bucket more durability for snow work when operating at higher speeds. The taller back keeps the material from rolling over onto your machine. This bucket is often used as a chicken litter bucket (or turkey litter) and for other wood shavings applications.

# SNOW ATTACHMENTS BLADES

## 6-WAY DOZER BLADE

The updated Blue Diamond® 6-Way Dozer Blade for skid steers is extremely rugged, easy to use, and offers superior visibility. It has a bolt-on edge, skid shoes, and heavy duty cylinders. Using a proven pivot system, it can tilt 10° and angle 30°. A blade extension is available for 8" of added height. It converts to a snow plow by pulling 2 pins and adding a height extension and trip springs. Don't settle for anything less!

PART NUMBER	MODEL	ANGLED WIDTH	WEIGHT
123065	Heavy Duty 72"	62.25"	1,012 lbs

## SNOW PLOW V-BLADE

The Blue Diamond® Snow Plow V-Blade is a versatile, heavy duty V-style blade that can be used both for snow and for dirt work. The electric-over-hydraulic controls allow this blade to be used in a conventional-style straight blade, V-back style for pushing off to both sides or a V-forward setting for scooping material. The trip function has a lockout for use in dirt, and the electrical hookup can be set for use with any skid steer model.

## SNOW ATTACHMENTS BLADES

**NEW!**

### HEAVY DUTY SERIES 2 MULTI-PURPOSE BLADE

The Blue Diamond Heavy Duty Series 2 Multi-Purpose blade is designed for commercial contractors. At 28" tall, this blade is purpose-built for large applications and has an optional 8" height extension that can be bolted on for even more capacity. The curved back keeps the material rolling for maximum efficiency. Adjustable skid shoes allow the cutting edge to land perfectly every time. The full-trip mouldboard protects the operator and equipment from hidden obstacles or curbs. These blades have a trip-lockout pin that can be installed when using the blade for dirt applications.

#### FEATURES INCLUDE

- Available in 84", 96", 108", and 120" widths
- 28" blade height
- Optional bolt-on 8" height extension
- Full-trip mouldboard
- Steel cutting edge

## SNOW ATTACHMENTS BLADES & TIRES

**NEW!**

### AUTOWING SNOW PLOW

Move more snow with a snow plow that thinks for itself - the Blue Diamond® Autowing Snow Plow. Its mechanical wings automatically adjusting from scoop mode to wind row position as you angle the plow allowing multiple angles to add torsional strength and prevent twisting under heavy loads. By combining the ease of straight blade operation with the productivity of a winged snow plow, the Blue Diamond® Autowing Snow Plow clears big jobs fast to ensure quality and consistency on every plow.

#### FEATURES INCLUDE

- 103" width
- 29" blade height
- Side wings adjust automatically
- Full-trip mouldboard
- Steel cutting edge
- Hydraulic angle
- 6° oscillation to follow ground contour

### SNOW TIRES - STANDARD DUTY (ARTIC CLAW)

Tired of losing time trying to push snow with those generic tires? Blue Diamond® Snow Tires/Wheel Assemblies help your skid steer get power to the ground in snow and ice. The tires are 6.6"- 8.5" wide, compared to 10"- 14" wide conventional tires, nearly doubling the ground pressure. Combine that with a small block snow tread, aggressive spacing in the tread, and a heavy duty 10-ply rating, and this tire will give your snow work a real boost. The taller tire will speed you up, and our black wheels look great on any skid steer.

## SNOW ATTACHMENTS

### SNOW PUSHER

The Blue Diamond® Standard Duty and Heavy Duty Snow Pushers offer excellent value for the light user right up to the commercial snow removal contractor. Both models use an adjustable rubber cutting edge and bolt-on wear shoes made from AR400. The rolled moldboard keeps the snow load live to reduce the host machine horsepower needed to move large snow loads.
