

AUTOWING SNOW PLOW BLADE

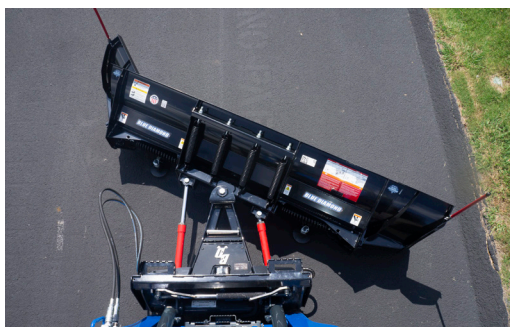

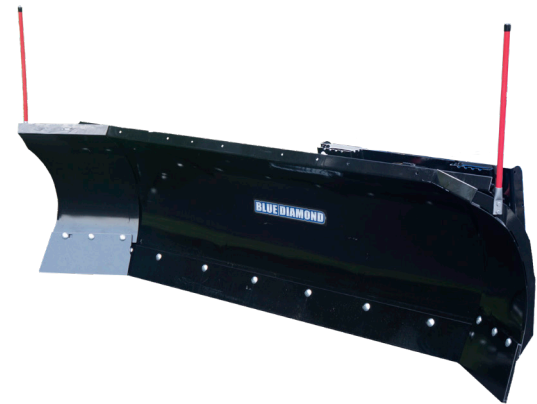

Move more snow with a snow plow that thinks for itself - the Blue Diamond® Autowing Snow Plow. Its mechanical wings automatically adjusting from scoop mode to wind row position as you angle the plow allowing multiple angles to add torsional strength and prevent twisting under heavy loads. By combining the ease of straight blade operation with the productivity of a winged snow plow, the Blue Diamond® Autowing Snow Plow clears big jobs fast to ensure quality and consistency on every plow.

FEATURES INCLUDE

- 103" width
- 29" blade height
- Side wings adjust automatically
- Full-trip mouldboard
- Steel cutting edge
- Hydraulic angle
- 6° oscillation to follow ground contour

fully angled blade

Full-trip mouldboard
