

# SNOW & MULCH BUCKET HIGH BACK

The Blue Diamond® High Back Snow and Mulch Bucket features a higher back than our standard snow and mulch bucket. The back has a mesh window, to avoid sacrificing visibility. The thicker metal and reinforced floor and back give this bucket more durability for snow work when operating your skid steer at higher speeds. The taller back keeps the material from rolling over onto your machine. This bucket is often used as a chicken litter bucket (or turkey litter) and for other wood shavings applications.

## FEATURES INCLUDE

- 32" high back
- 38" deep front to back
- Reinforced back and floor
- Pre-drilled for bolt-on edge option
- Available in 3/16" wrap, 3/8" edge

38"D X 32"H
