

MULTI-PURPOSE BLADE STANDARD SERIES 2

The Blue Diamond Standard Duty Series 2 Multi-Purpose blade is great for snow and light dirt work. At 22" tall, this blade is a great fit for most users and has an optional 8" height extension that can be bolted on for high-volume applications. The curved back keeps the material rolling for maximum efficiency. Adjustable skid shoes allow the cutting edge to land perfectly every time. The full-trip mouldboard protects the operator and equipment from hidden obstacles or curbs. These blades have a trip-lockout pin that can be installed when using the blade for dirt applications.

shown with optional height extension
