

# MATERIAL ROLLER

## FEATURES INCLUDE

- Pivot arm locks for storage and transport
- Pivot arm adjustable stop allows for below horizontal operation
- Quickly and easily mounts on any skid steer
- Hydraulic actuator allows the stem to swing 180° left or right, 115° up, and 8° down
- Detachable stem available in 4 lengths
- Retaining collar with quick pin keeps material perfectly positioned on the stem

Your workday just got a lot easier. Introducing the Blue Diamond® Material Roller. Precisely crafted and ruggedly built, the material roller will not only lighten your load-but cut your crew requirements by almost half. From loading to unloading the flat-bed to laying down roll after roll, any project will get done faster with less physical effort with the material roller.

## APPLICATIONS INCLUDE

- Highway medians, shoulders, channel bottoms, and side slopes
- Golf courses, fairways, and roughs
- Residential, commercial, and industrial developments
- Landfill caps
- Mine reclamation projects
- Pipeline right-of-ways

STEM DIAMETER	3.5"	3.5"	3.5"	3.5"
STEM LENGTH	5'	7.67'	9'	
WEIGHT	40 lbs	60 lbs	66 lbs	174 lbs
MAX ROLL WEIGHT	500 lbs	500 lbs	500 lbs	
MOUNTABLE ROLL WIDTHS	4' on 5' stem	6.67' on 7.67' stem	8' on 9' stem	16' stem

Note: Lift and tipping capacities must be based on the specifications of the individual skid steer manufacturer and not on the weight or the capacity of the material roller. The material roller reduces the rated operating capacity of a skid steer by approximately 82%. Never exceed the rated operating capacity or any skid steer manufacturer.
