

TRACTOR HAY SPEAR

The Blue Diamond Hay spear with a 3 point hitch is an important tool when moving hay bales. By utilizing the 3 point hitch on the rear of small tractors, it allows the heavy bales to be lifted by using the tractors weight for counterbalance when a front end loader would not have the capacity. The hay spears are available to fit category 1 or category 2 hitches to fit up to 80 horsepower tractors.

FEATURES INCLUDE

- Available to fit category 1 or category 2 hitch
- Main spear capacity: 3,500 lbs.
- Allows bale handling on small tractors without front end loaders
- Two removeable stabilizers
